FRATES' INVESTIGATION, AND THE CORO The magistrates investigation, and the consense of Hudson county, New Jersey, appointed yesterday for noon for an investigation into the charge of riot, at his boken, against the prisoners detained in Bergen jail. The investigation was to have been held at the court house, and the justices assembled there; but on consultation, they deemed it advisable to wait till the result of the Coroner's inquest, pending at Hoboxen, should be known; and after waiting some hours, they adjourned till this day. A large number of Germans, and and female, were congressed about the court mans, maie and female, were congregated about the court house and the jail, some of them witnesses, and others relatives and friends of the prisoners, with whom they conversed through the bars of the prison.

The topic of conversation every where, yesterday, in ersey City, Hoboken and Bergen, was the famous battle in the Elysian Fields. The sympathics of the Jerseymen are all in favor of the Germans, and they say t if the Short Boys had let them alone, the Germans would have created no disturbance or riot. They also censure the authorities of New York for not vigorously censure the authorities of New York for not vigorously executing the laws, and cutting up rowdyism, root and branch, iong since. They contend that the Short Boys of New York (of whom the Short Boys of Hobeken are an offshoot) have long enjoyed impunity for their transgressions, through the imbecility or corruption of the justices and the police of New York; and they threaten vengeance against them, if ever they get them into their power, and say that the punishment of the Kelly Guards is a mere trifle compared with what awaits the next rowdies who fall into the clutches of New Jersey justice. It appears that the police authorities on this side the water expected a requisition from the Mayor of Jersey City, before going over to assist in quelling the riot, though even then they would not be bound to go; but the Mayor of Jersey City had no jurisdiction whatever in Hoboken, it being situated in Hudson county, and therefore did not feel warranted in asking police to come there from another State.

The military of Jersey City heard nothing of the riot till half-past eight o'clock, and in a quarter of an hour afterwards they were off in a number of cars, to render assistance. The chief good they did was to escort a number of scared and straggling Germans in safety to the

THE PRISONERS.

Last evening, a petition was got up by the Coroner and jury, now in session at Hoboken, praying the release on bail, of Dr. Augustus Doenaies, one of the individuals arrested on suspicion of having been engaged in the riet at Hoboken, on Monday. Mr Morris K. Crane, Coroner, and other gentlemen, proceeded to Mr. Wright's, the District Attorney, and thence to Judge Kidney's, with the petition. Satisfactory bondsmen being present, ball was taken in the sum of \$1.000; and the doctor was released from his imprisonment about half-past nine o'clock last night, to appear before Judge Kidney this morning, at ten o'clock, when the prisoners are to undergo a pre-liminary examination. Justice Kidney will visit Hoboken this morning, to examine the evidence taken before the Coroner's jury, before calling out the prisoners. Nothing has yet been elicited by the jury directly to implicate a single individual now in prison on account of the riot. Some persons were seen striking Bridges several times; but whether the gullty ones have yet been arrested remains to be shown hereafter. There is sufficient proof that some of those who took the most prominent part in the riot, and who were seen to do serious damage with guns and other weapons, are still at large.

I ordered the doors to be closed; the Germans then commenced an attack on the house-breaking the doors, winds ws, and bar fixtures, with sticks and stones; several of those whom they were pursuing ran into my house; I could not recognise any of those who made the attack on the house; my wife and bar-keepers could recognise many of them; a large number of the young men who were pursued by the Germans got into boats and shoved out into the stream; I could distinguish a number of the Short Boys among them; I have never, on any other occasion, seen the Short Boys more quarreisome than any other people who visit my premises; could not mame any of the Hoboken boys whom Mr. Browning and myself disarmed. I believe the Germans were breaking my furniture, and destroying everything they could find, I told them to desist or I would shoot them; they then walked out, but soon returned—having full possession of the lower part of the house; I then fired among them; they became more furnous; I then fored among them; they became more furnous; I then loaded and fired among them a second time, when they began to disperse; before they left they set fire to the kitchen; the fire was extinguished by a young man, at the risk of his own life.

side; I saw Short Boys being pursued by Germans, who were trying to arrest them for making disturbance on the ground; the Short Boys were running towards the ferry.

By a Juror.—What is the nature of the Gymnastic Society, or Turner?

Ans.—They try to improve their strength and activity by athletic exercise; it originates from the beginning of the nineteenth century; their watchwords are, keep fresh, pious, merry, and free; they are all young men of good education, and drilled for exercise by the signal of a trumpet; they consider it their duty to defend the weak and unprotected at all times, and in all piaces.]

By another Juror.—Is it a respectable society.

Ans.—I believe, gentlemen, that every one in this room would have no objection to become a member of this society, so far as the morals and good tendency of it are concerned.

Dr. John M. Julian sworn:—I reside in Third street, Hoboken; did not know deceased; I was called upon to visit a man at Mr. Broke's public house, about 8 o'clock on Menday night, 20th inst; I saw deceased lying on a couple of carpets in the middle of the floor, and several persons around him, among whom was a German physician; on examining the patient, I found him insensible, with three wounds on his head and face; he had one bad wound on the back part of his head, one on the right lower jaw, two on the skull, and one behind the ear, which latter seemed to be the most dangerous; on examining the wounds. I found a large quantity of blood flowing from them; the neck was much swellen; at that time I could not see any fracture of the skull; the skull bone was bare; afterwards I found there was a fracture of the base of the skull is usually a mortal wound; I found that he was dying fast; I left him in charge of Dr. Schoman and other friends and went away; on coming out I saw several persons armed with clubs; they said, here are two of them—left use at them; Mr. Brown has hip carpenter, who was with me, spoke to the crowd, and said.—I Hallo, boys this is the doctor; they then let us pass:

Last night at 8 o'clock, a number of the citisens of Holoken, principally Germans, held a meeting in pursuance of the following call, signed by a large party of respectable persons:—

THE CALL.

"We, the undersigned, citizens of Holokean in consequence of the disastrous and meiancholy affra, which took place here on the 26th inst. do feel it our bounden duty to adopt some measures for the prevention, in future, of any such occurrence; and infurtherance of such views, we propose the organization of a military company, of such citizens of Hobokean as are lovers of good order, to put down the acts of a reckless set of ruffians who infect our township; and, further, to protect on all occasions the persons and property of our citizens, and those who visit us to enjoy the rural beauties of our place."

those who visit us to enjoy the rural beauties of our place.

Several speeches were made by respectable Germans, all condemnatory of the disgraceful seems that took place on Monday creating, and soliciting the co-operation of all good citizens, whether Germans, Americans, or of any other nation to lead their best energies to prevent a recurrence of similar outrages in future.

A. S. Bern, Ess., made a short but elsquent and emphatic speech, urging the necessity of a systematic organization, either as a police or military force to preserve the future peace and order of Hobeken.

A committee was then appointed consisting of Mr. Cooper, president of hast vening's meeting, Lewis Becker, E. Magnus, C. Elden and C. Wrny, to confer with the American meeting, to be held this evening, at the Otto Cottage, as to the best means of preserving the peace of the community, and to report accordingly to the next German meeting, to be held on Friday evening next.

The general desire seems to be, to have an organized force in readiness by next Sunday, to prevent an outbreak, such being expected by many unless strict authoritative measures are adopted.

The meeting adjourned at eleven o'clock.
